Booking

Readers reserve one seat for 90 minutes. Unclaimed seats are released after 10 minutes.

Check-in

A desk code confirms arrival. Staff use a paper register when the reader is offline.

Quiet room

Calls take place outside the quiet room. Group discussions use the collaboration zone.

Book returns

Returned books go into a separate tray. Staff scan each book before shelving it.

Overdue reminders

A reminder is sent two days before the due date. A renewal is blocked when another reader reserved the book.

Device lending

A laptop loan lasts four hours. Staff record the device condition at checkout and return.

Accessibility

The pilot keeps two adjustable desks near the entrance. Readers can request large-print instructions.

Privacy

Visit counts are stored without names. Booking details are removed after seven days.

Outage

Staff record seat assignments on numbered cards during an outage. Cards are reconciled before the online schedule reopens.

Evaluation

The team counts occupied seats every hour. Reader feedback is collected separately from booking records.
